The New A-Class  
Ready for a new generation.

Mercedes-Benz
A perfect performance when stationary. A truly lasting impression as it accelerates away. Setting its own standards as it soars. Surging ahead where others fall behind. The new A-Class.

Ready for a new generation.
What's the secret to striking the right chord? Making sure it's perfectly in tune. What a better feeling than being inspired? Being inspirational. Finding your own way can be a joy ride, but it can be incredible fun. With the new A-Class Sporter and its star feature, you won't be ready for new looks, new forms, new ideas?

The zeitgeist?
Overtaken ages ago.
The epitome of a new beginning.
One switch. Four personalities. Comfort, Sport, Eco or Individual – everything’s possible. In next to no time with the DYNAMIC SELECT switch. One click is all it takes to find driving dynamics to suit your mood or the road. Or the weather. Come what may, the new A-Class is already here.

Click. Kick.
Eye contact plays a big part in the new A-Class, too, and it’s hard to look away from its confident aura and to grasp the spirit of a new generation. Follow it. Give your dreams a free rein.
Object of desire. And fulfilment.
A sea of expressionistic Elbait. So compellingly irresistible that it takes even the air’s breath away. The A-Class has the best drag coefficient (cd value) in its segment. Every line and every surface has been aerodynamically optimised. It doesn’t just look captivatingly dynamic, it also reduces fuel consumption and driving noise.

Leaves its mark on your eyes as well as your mind.
Life without a smartphone? Unimaginable. The new A-Class is a perfect base for your data. Numerous smartphone functions – including music and messages – can be controlled through the car. It looks like exciting times are ahead.

Dock and drive.

*Please read the disclaimer.*
Deep-rooted traditions: in our case, it is innovative traditions that run deep. We have continually gone down previously uncharted avenues. Milestone by milestone. These ventures spawned the first vehicle with a crumple zone, the first ABS, the first diesel passenger car. The first car. Rather than dwelling on the past, let us look to the future.

Mercedes-Benz Intelligent Drive – on the road to accident-free driving. We develop intelligent assistance systems which actively support the driver and noticeably relieve their workload. They monitor and analyse the vehicle’s surroundings and handling characteristics – and warn the driver if they identify any critical situations. When necessary, some of the systems are able to intervene to take corrective action. Potential dangers are identified earlier – and ever more frequently avoided as a result.

Discover the fascinating world of Mercedes-Benz Intelligent Drive at www.mercedes-benz-intelligent-drive.com

BlueEFFICIENCY – our vision of emission-free driving. Sustainability is a big word to which we lend real meaning in all that we do, down to the smallest details. From minimising the environmental impact of our production operations to alternative drive configurations.

4MATIC – driven by new challenges, the vision of optimum traction led the Mercedes-Benz engineers to the International Motor Show in Frankfurt. That is where, in 1985, they unveiled 4MATIC, an innovative traction system working with state-of-the-art microelectronics and hydraulics. Just two years later it entered series production in the E-Class. It has continued its triumphant advance ever since in virtually all model series. And on every terrain. 75 models are now out on the road with 4MATIC and it is tailor-made for each class. Comfortable and perfectly configured for the compact class, right through to extremely sporty for the Mercedes-AMG performance models. For more safety and an intensive driving experience in every single moment.

As you can see, we have major goals in our sights. And what could be better than seeing these aims achieved whilst on a long drive in a Mercedes?

What makes a car a Mercedes?

*Please read the disclaimer.*
We are the first automotive manufacturer worldwide to have developed an integral safety concept, aimed at avoiding accidents, ensuring ideal responses to dangers and mitigating the consequences of accidents. For the occupants of a Mercedes and for all other road users, too.

**Safe driving**

**ATTENTION ASSIST** can detect typical signs of drowsiness based on steering behaviour, specially on long journeys and when driving at night, and give the driver plenty of warning if microsleep is imminent.

The **ADAPTIVE BRAKE** control system improves braking performance through intelligent intervention: in wet conditions, the brake discs are kept dry. The brake pads are applied automatically when the driver’s foot is removed abruptly from the accelerator pedal. And on uphill slopes, the system is able to prevent the vehicle from rolling backwards.

**Anti-lock Braking System (ABS)**

The rotational speed of each wheel is constantly monitored by rpm sensors. The Anti-lock Braking System intervenes if the rotational speed of a wheel greatly decreases during braking, which indicates that locking is imminent. Solenoid valves first block the brake line, rerouting some of the brake fluid to lower the brake pressure. Afterwards the re-routed brake fluid is fed back to the line between the brake cylinder and the solenoid valve, normalising the brake pressure. This process is repeated several times per second, which leads to the brake pedal vibration typical of anti-lock braking systems.

**Electronic Stability Program (ESP®)**

In dynamically critical driving situations, the Electronic Stability Program (ESP®) can counter any tendency to skid. By applying specific braking action at individual wheels, ESP® reduces any tendency to oversteer or understeer. If required the engine power is also adjusted to suit.

**In the event of danger: Acceleration Skid Control (ASR)**

Moving off and accelerating on snow, wet road surfaces or gravel – in these situations acceleration skid control (ASR) prevents individual wheels from spinning, so as to prevent the vehicle from breaking away sideways.

**In an accident**

An extensive protection system can substantially reduce the risk of injury. The car occupants, meanwhile, benefit from a high level of accident protection thanks to six airbags.

**After an accident**

Every Mercedes-Benz is highly trained in first aid. If the worst comes to the worst, the engine can be stopped automatically, the hazard warning lights and emergency interior lighting can be activated, and the central locking can be unlocked.
Diesel engine

More economical, cleaner, more powerful: the A-Class also signals the launch of the current Mercedes-Benz diesel technology. The engine is powerful and quiet. And they impress with their optimised emission and fuel-consumption figures.

4-cylinder in-line engine. The 4-cylinder diesel engine display hallmark Mercedes qualities: they boast a hefty torque and an immediate response, even in the lower engine speed range. At the same time the diesel engine is modest when it comes to fuel consumption, they are low, more economical, cleaner, more powerful. The A-Class also signals the launch of the current Mercedes-Benz diesel technology. The engines are powerful and quiet. And they impress with their optimised emission and fuel-consumption figures on emissions, impress with their significantly improved quiet-running characteristics and with their reduced vibrations. The fourth-generation common-rail diesel technology has an injection pressure that has been increased to 1800 bar, optimised combustion chambers and precise solenoid valve injectors. Improved ignition pressure and a turbocharger with a variable nozzle turbine ensure a high torque in every engine speed range.

Intelligently controlled ancillaries contribute towards increasing the efficiency. A 200 d has an ECO start/stop function which ensures that the engine is temporarily switched off when the vehicle is at a standstill.

It goes without saying that the diesel engine meets the requirements of the Bharat Stage IV emission class.

Note: Not conducive for driving in waterlogged roads with still water depth more than 25 cm.
Petrol engine

The new petrol engine is developed with the aim of reducing fuel consumption and emissions without compromising on output and ride comfort.

**4-cylinder in-line engine.** The newly developed 4-cylinder power plant with a displacement of 1.6 litres, direct petrol injection, variable valve timing and a turbocharger offer excellent figures when it comes to both torque and power, plus exemplary quiet-running characteristics, not to mention appropriately low fuel consumption and emissions.

The high-pressure direct injection via precise piezo injectors and an enhanced combustion process facilitate virtually total combustion and thus higher efficiency, which means that the fuel can be used more efficiently. The variable valve control results in an optimum cylinder charge level and therefore consumption benefits, which also come courtesy of the lower weight, less internal friction plus ancillaries controlled as required. And last but not the least, the standard-specification ECO start/stop function raises the efficiency of the engine. The new petrol engine is developed with the aim of reducing fuel consumption and emissions without compromising on output and ride comfort.

The A 180 comes with 1595 cc and 90 kW (122 hp) plus a maximum torque of 200 Nm.

**Note:** Not conducive for driving in waterlogged roads with still water depth more than 25 cm.
DYNAMIC SELECT. Emotions on demand.

Straight from the luxury class to the new A-Class: DYNAMIC SELECT. A small button with an astonishingly big effect. You can change between the pre-configured driving modes – “Comfort”, “Sport”, “Eco” and “Individual” – as and when you wish. Doing so alters the settings of the steering, the drive system and – if the new adaptive damping is specified – also the suspension. “Individual” mode lets you choose your own individual settings. DYNAMIC SELECT is either standard or optional, depending on model and equipment.
*Please read the disclaimer.
The design and equipment emphasises the individual vehicle character – with 5-twin-spoke light-alloy wheels, sports seats with specific seat upholstery layout, a black diamond radiator grille with one louvre in the vehicle colour and chrome insert plus a chrome-plated trim strip on the front bumper.

**EXTERIOR HIGHLIGHTS**

- 40.6 cm (16-inch) 5-twin-spoke light-alloy wheels painted in black and with a high-sheen finish, with 205/55 R 16 on 6.5 J x 16 ET49
- Diamond radiator grille in high-gloss black, louvre painted in vehicle colour with chrome insert
- Beltline trim strip in chrome
- Chrome-plated trim strip in the front bumper
- Panoramic sliding sunroof
- LED High Performance Headlamps

**INTERIOR HIGHLIGHTS**

- Sports seats upholstered in ARTICO man-made leather/Messancy fabric with highlights in green or red and contrasting topstitching
- Seat Comfort package, including adjustable seat length
- Honeycomb-look trim
- Air outlets with surround and cruciform nozzle in silver chrome
- High-gloss black light switch with ring in silver chrome
- Cover on stowage compartment in center console
- Multifunction holder in the center console
- 3-spoke multifunction steering wheel with 12 control buttons
- Reversing camera
- Rear center armrest
- Audio 20 CD including preinstallation for Garmin® MAP PILOT
There are countless possibilities for making the New A-Class your own. From small details that add special touches to comfort features which until recently were still the reserve of the luxury segment.
Standard Equipment

Panoramic Sliding Sunroof

LED High Performance headlamps

## Upholstery, trim and alloy

### Upholstery
- ARTICO man-made leather/Messancy Style fabric in black/red
- ARTICO man-made leather/Messancy Style fabric in black/green*  

### Trim
- Honeycomb look

### Alloy
- 5-twin-spoke light-alloy wheels, painted black with a high-sheen finish, with 205/55 R 16 tyres

*Green interior upholstery will be available only with Elbait green exterior colour.
Genuine Accessories

**Illuminated Star**

Let your Star shine. Thanks to fibreoptic cables and LED technology, the central star emblem in your Mercedes’ radiator grille lights up when you remotely lock/unlock the vehicle or open the door or tailgate. Only functions when engine is switched off.

**Front trim strip, Carbon-Style carbon-effect**

Mercedes-Benz Sport Equipment front apron spoiler lip in realistic Carbon-Style with individual, dynamic 3D effect underlines the dynamic character of the vehicle.

**Exterior mirror housing, 2-piece, black**

Black, high-gloss Mercedes-Benz Sport Equipment Exterior mirror housings for enhanced aerodynamics and an individual, sporty and dynamic look.
Genuine Accessories

Rear trim strip, Carbon-Style

The Mercedes-Benz Sport Equipment rear trim strip, with its realistic carbon fibre look and individual, dynamic 3D effect, underlines the vehicle’s dynamic appearance.

Trim rear window, 2-piece chromed

High-sheen chromed trim, stylishly rounding off the Mercedes Sport individualisation concept for your A-Class. 2-piece set.

Decal Kit

With both sets of decals (Road & Track) lend your vehicle a sporty look and underline its expressive design.
Genuine Accessories

Garmin® MAP PILOT SD card
User-friendly navigation and excellent route guidance – the Garmin® MAP PILOT navigation system brings all the benefits to the Audio system. The maps have a Garmin look and feel and appear in high resolution and in colour on the multimedia system’s large display, with additional navigation information in the instrument cluster.

Sports Pedals
For a sporty look – the pedal covers, in brushed stainless steel, add a sporty, high-quality touch to the interior. The genuine parts feature a non-slip rubber stud inlay and comply with the safety standards of Mercedes-Benz.

Travel and Tool Kit
The head restraint elements are simple to fit and remove. The modular system centers around a base support which can be combined with various products – a coat hanger, a universal hook or a folding table.

Coolbox
Not only cools but warms too. Cools up to 20°C below ambient temperature – to max. -2°C. Can be switched to warming function. Robust, highly insulated hard case with fabric cover, outside pockets and padded shoulder strap. Capacity: 24 litres. Can be connected to 12 V socket in vehicle or to 230 V power source via separately available rectifier.
Genuine Accessories

Mud Flaps
The Mud Flaps protect the sides, rear and underbody of the vehicle from scratches and damage from loose chippings. They also help protect following traffic from loose chippings, splash water and dirt. And they minimize spray. Precision-tailored to the contours of the vehicle – do not affect the vehicle’s sporty looks. Material: extremely hard-wearing, durable, UV-resistant. Can be painted in the color of your choice.

Mats
Floor Mats have to undergo rigorous testing before they are deemed worthy of the star logo: durability, fade-resistant colour and a neutral odour. The mats are precision-tailored to your Mercedes-Benz using the vehicle’s original CAD data. Can be clip-fastened to the floor to prevent slipping. Floor Mats are available in various types and colors in order to meet your specific requirements.

Velour Floor Mats
Elegant, high-quality, black tufted velour mats, featuring metal badge with Mercedes-Benz lettering.

All-Season Floor Mats
Robust, washable synthetic mats, designed for heavy use. Contemporary design with recessed areas and raised edge. With distinctive Mercedes-Benz star logo. Available in black.
Genuine Accessories

Mercedes-Benz Child Safety

Mercedes-Benz child seats offer optimum protection in the event of an accident. Child seats are tested and inspected to exacting Mercedes-Benz specifications.

“BABY-SAFE plus II” child seat
Deep, moulded seat design offers extra side-impact protection for optimum safety. Special padding, designed to protect particularly vulnerable body areas of children up to around 15 months (up to 13 kg).

“DUO plus” child seat
Optimum safety for children between the ages of around 8 months and 4 years (9 to 18 kg). Fitted as standard with top tether, an additional belt for securing the head section, a height-adjustable shoulder belt, ventilation channels and ISOFIX attachment.

“KIDFIX” child seat
Booster seat for optimum side-impact protection, with height adjustable backrest. The “KIDFIX” seat is secured using the 3-point seat belt and ISOFIT attachment points. For children between the ages of around 3.5 and 12 (15 to 36 kg).

Service

The luxurious experience of driving a Mercedes-Benz is converted into a fulfilling ownership experience with a range of exclusive services and special programmes.

Cost of Ownership

There has been a paradigm shift in the buying preferences of Indian consumers over the years, even for the luxury products. The purchase decision not only dwells around cost of acquisition but also the total ‘Cost of Ownership’ (COO). Amongst the key components of COO in cars are the routine service jobs and the unplanned repair expenses post the warranty period. We are now offering highly-affordable Service Packages and Extended Warranty Programmes which are the most competitive packages in its class. All in all, we provide you with a controlled Cost of Ownership while you benefit from the legendary Mercedes-Benz service quality.

Experience complete peace of mind when you drive the Star

STAR CARE programme offers peace of mind for you during the warranty period and beyond. While our cars are covered for warrantable repairs of up to 3 years without any mileage limitations as standard, you can also buy STAR CARE Plus programme, offering 4th year extended warranty. Additionally, the programme enhances the resale value of your car.
STAR EASE service package gives you the freedom to relax behind the wheel and puts your mind at ease with its range of unique benefits such as defined cost of maintenance and priority handling. STAR EASE comprehensive package covers essential jobs related to periodic service (viz. oil, filters, consumables, etc.) along with coverage for brake pads, brake discs, wiper blades, wheel alignment and balancing for a contracted period. For further details on products and pricing, please contact your nearest Mercedes-Benz dealer.

On-Road Assistance Programme

As part of our ongoing commitment to you, Mercedes-Benz On-Road Assistance is designed to enhance your overall Mercedes-Benz ownership experience by providing you with 24-hour On-Road Assistance. Mercedes-Benz is the only luxury car manufacturer to offer round-the-clock On-Road Assistance for 3 years from purchase of the vehicle as a standard offering. Peace of mind motoring – guaranteed.
India’s Largest Luxury Car Network

It takes a keen sense of responsibility to provide the Best. Our large network is spread across the country in 40 cities with 81 outlets and is still growing. With world-class showrooms, state-of-the-art workshops and highly skilled personnel, experience the best wherever you go.
